During Your Leave

While on leave, it's important to understand how your benefit contributions will work.

- **During paid leave:** Your health and benefit contributions, including Citi Retirement Savings Plan contributions, will continue to be deducted from your pay, except for Dependent Care Spending Account (DCSA) and Transportation Reimbursement Incentive Program (TRIP) contributions.
- **During unpaid leave:** You will be billed for your portion of health and insurance benefit premiums during any period of unpaid leave, except for Dependent Care and TRIP spending accounts.

Returning From Leave

Reach out to your manager as your approved leave comes to an end to confirm your return-to-work plans (and MetLife, if applicable). To prevent any interruption in your pay, you must request that your manager enter your return-to-work date into Workday once you've returned to work.
